i wish it was my day off...i'm at Ahoooooooooja tonite, too...then i come back to home, sweet, home....Ahoooooooooja is like a sharp, younger woman who a man of weak-will might dally with ("but that ain't me no mo"....that line is from Raising Arizona!), but I know Geauga is the woman who is good for me, long term!!! i'm going to slow it all down with the OT in the new year...my goal...i need to ease off the pedal a bit...this shift is no good for me, but i've been away from working with others for a while now and i don't think i can go onto a more populated shift...too much input....so i just have to grind it out, solo, until i retire

Hi Frank, this made me laugh - I can hear you saying it!

I looked in Kronos and somehow it looks like your float worked, even though it didn't seem like it did! Weird.

Have a good last day off!
